

India, a land of rich medical heritage, is home to diverse systems—Ayurveda, Yoga, Unani, Siddha, Homeopathy (AYUSH), modern allopathy, and traditional knowledge. Though these approaches co-exist, they often function in silos.

This international conference marks the beginning of a platform for sustainable, person-centric healthcare, uniting all systems and professionals through a transdisciplinary approach to address complex health challenges holistically.

In partnership with WHO CCET, the event highlights advancements in trauma care and the pivotal roles of nursing, paramedics, pharmacy, and diagnostics.

PGiCON 2025 aims to:

To Empower

Nursing and paramedical roles in integrated care

To Share

best practices across health sciences

To Advance

transdisciplinary health research

To Recommend

sustainable, integrated therapies

To Collaborate

between Allopathy, AYUSH, and traditional systems.

To Strengthen

policies and education for transdisciplinary health.

To Apply

Transdisciplinary Approach in emergency and injury care

1st International Conference on Trans-disciplinary Approach to Health in India PGiCON 2025

By
Pal Group of Institutions

In collaboration with
